Simplicity, Tranquillity and Time

Elements so often missing in our frenetic modern lives.

AMAN
SPA

at The Connaught

Beneath the elegant Edwardian lobby of The Connaught in London lies a portal from England to the East. The Aman Spa at The Connaught is the first Aman resorts-branded facility built outside one of the company's own properties. The result is an oasis of tranquillity that reflects the group's inimitable style and Aman's Asian-inspired aesthetic. Aman's first urban destination combines cool granite and white marble, warmed with timeless honey-gold oak and dove-grey Portland stone. Organic linen, cotton, bamboo and silk in white and burnished pewter add further warmth. Ultimately the effect is one of harmony creating an atmosphere of luxurious calm.

Our Philosophy

Wellness is more than being free from illness, it is a dynamic process of change and growth, a state of complete physical, mental and social wellbeing. Aman's spa concept has been carefully curated with four pillars of wellness in mind - nutrition, movement, psychological health and bodywork - with the singular goal of achieving this ideal balance of Integrated Holistic Wellness for every guest.

Treating the whole - mind, body and spirit - by integrating ancient healing modalities with the best of modern science, Aman strives to provide guidance, support and knowledge in a journey that extends beyond the physical boundaries of the globe's Aman Spas. Our aim is for guests to leave empowered and renewed, with the tools to continue their wellness journey, and the resilience and focus to put them into action.

Holistic & Results Driven Treatments

Based on purpose and designed to support you
to reach your wellness goals.

A New Spa Language

Many of the world's ancient systems of traditional healing such as Ayurveda and Traditional Chinese Medicine (TCM) are based on complex theories of the workings of the human body and mind. They incorporate aspects of health unexplored in allopathic medicine, which means that certain concepts and terms can sound strange to the uninitiated. Talk of chakras and energy can be off-putting for some when taken out of context. Yet when understood as part of the philosophy behind a traditional healing system, they reveal an intriguing new language for explaining how our bodies work.

While understanding these theories is not a prerequisite to enjoying their benefits, Aman Spa aims to demystify this language for those who wish to know more. Our spa menus draw inspiration from traditional healing systems the world over, from the rich lore of herbal medicine, to the shamanistic traditions of the Navajo Native Americans.

Understanding Energy

The idea of life force or life energy is very common in traditional healing systems. In TCM this is known as “qi” (chi), while in Hindu philosophy including yoga, Ayurveda and martial arts, “prana” is the Sanskrit word used to describe this potent vital energy. A shared principle in many healing modalities is that any blockage in the flow of life force in a body can cause imbalance and therefore ill health in some respect. Blockages can be physical, mental or emotional, and their removal to restore balance and energy flow is the main goal of many traditional healing practices.

Aman Skincare

Aman's new line of all-natural skincare products draws on the knowledge and wisdom of ancient wellness traditions while harnessing the power of nature. Rare and precious ingredients used include pearls, homeopathic metals, healing tree oils, amethyst, jade and sage, as well as wild-harvested Amazon butters and rainforest muds. Consisting of smoked body balms, fragrant dew mists, liquid body oils, invigorating body polishes, anti-ageing serums and more, the range is made from organic ingredients sourced from around the world for their purity and potency, and their link to Aman destinations.

Working holistically to nurture and enhance overall wellbeing, each product penetrates deep into the skin to nourish and rejuvenate, but also works on a deeper level, meeting emotional need states. Grouped into three unique formations that reflect three healing pathways back to wellness – Grounding, Purifying and Nourishing – the products contain ingredients that work in sequence with the human body to promote change and return equilibrium. The physical benefits of each product are completely aligned with its ability to address emotional imbalance, together offering a holistic fine-tuning with tangible, long lasting results.

Aman Signature Treatments

The Aman Spa Signature Menu, available at every Aman Spa destination around the world, reflects the Grounding, Purifying and Nourishing formations of the Aman Skincare product range.

There are four treatments available within each formation: Massage, Body Polish & Wrap, Face Ritual and the Journey – encompassing all three treatments to greatly amplify their effects. Each treatment is tailored to the individual to target specific concerns and help attain personal wellness goals.

A deeply relaxing, mineral-rich foot ritual is a prelude to each treatment. This is also symbolic – an act of humble service that fosters trust, helping guests to fully benefit from the treatments that follow.

Destress & Reset**Reiki Master Energy Stress Relief****1 hour or 1 hour 30 minutes**

Reiki is a grounding spiritual energy practice with the power to transform you and your perspective on life. This spiritual life force healing technique is channelled through the naturally healing hands of our Reiki Master, placed either on the body or above it. As this happens, feel the flow of Reiki energy at every level – physically, emotionally and spiritually. Gentle yet powerful, the sensation is a little like bathing in light and warmth, or of softly rippling warm water, leaving the mind and body refreshed and invigorated. For others, it is a subtle spiritual force that relaxes from deep within, using higher vibrations to banish stresses and melt away the body's blockages.

Destress & Reset**Acupuncture for stress management**

Traditional Chinese Medicine (TCM) is one of the world's oldest medical systems still widely practised today. The holistic approach diagnoses, treats and even prevents conditions by identifying patterns of imbalance and then applying the individual or combined therapies of acupuncture, with dietary advice to correct them. Acupuncture works by stimulating specific points on the body's surface through the insertion of ultra-fine needles. By restoring balance to the body, practitioners are able to treat more than one condition at a time. It can also be used to relax deeply and conversely, to invigorate flagging energy. Your TCM practitioner will carry out a comprehensive consultation prior to your first treatment which will look at all aspects of your medical history, lifestyle and current symptoms to design a bespoke treatment to relieve physical and mental blockages.
